Mr. Cyrus Harvey,
Dear Sir:

I have bought trees and grape vines of you for two years and they were fine. I bought trees from other nurseries and yours were the best I bought.

Yours respectfully,

W. S. Iseminger.

Altoona, Ia., Jan. 27, 1930

Mr. Cyrus Harvey,
Mitchelville Ia.

Dear Sir,

The trees, shrubs and vines we purchased from you during the past two years have been satisfactory in every way. The grape vines bore fruit the second year. All of the fruit trees are living and growing. We only lost two of the pine trees which is not bad considering the fact they are exceptionally hard to grow in this locality.

Best wishes to you for the coming season.

N. W. Atkins.

Ames, Iowa, June 13, 1907

Mr. C. E. Harvey,
Altoona, Ia.

My Dear Sir:

The plantlets came through in fine condition, every one a live, hardy, stocky plant, with a well developed root system. "We always know a tree by its fruit," so I can say unhesitatingly that when you get anything of "Cy" that it is the best there am.

Hoping that I can help others by having them get the best for the least money, and guaranteed satisfaction, I am,

Very truly yours,

Geo. H. Craig,
Ames, Iowa.

Blossom Time Open House is an annual affair and largely attended by people from far and near. In past years the Iowa State College put on demonstrations and the visitors were addressed by such speakers as Gov. John Hammill, Geo. Hamilton, E. C. Lytton, Dr. J. J. Boyland, Mayor Fred Hunter, Representative E. A. Elliott, etc. It will be about May 1st this year and last 10 days. Everybody is invited to come and see the blossoms and have a picnic lunch in the woods. Schools and Sunday School classes especially invited.

My main stock is at the nursery as I can only keep just a few plants and trees on the 10 foot frontage at the market.

Dear Friend:

Office of the State Entomologist
CERTIFICATE OF NURSERY INSPECTION
Station "A", Ames, Iowa, September 1, 1929.
Number 193

This certifies that the nursery premises and the growing nursery stock consisting of General line of nursery stock. Red and Black raspberries doubly inspected for virus diseases, (general nursery stock—evergreens, strawberries, raspberries, ornamental shrubs, etc., etc.) and belonging to Cyrus E. Harvey, Altoona, Iowa, have been inspected by a duly authorized nursery inspector as provided by "The Iowa Crop Pest Act"—Chapter 201-B1 Code of Iowa, 1927.

Permission is hereby granted to the above named nursery to sell and ship (1) stock of his own growing which upon inspection has either been found apparently free from dangerously injurious insect pests and plant diseases, or if diseased, has been treated as prescribed by this office, and (2) stock obtained from other sources approved by this office, provided that a tag on which a copy of this certificate has been printed, is attached to each package, bundle, bale, box or car load lot shipped or delivered.

This certificate applies only to stock which has been officially inspected for the year ending September 1, 1930 and expires on that date, but may be revoked by the State Entomologist at any time for cause.

CARL J. DRAKE

Beware of unscrupulous persons selling under my name. I have known of them selling along the highway and even as far away as Newton—selling what they claimed was Harvey's fruit. Also there has been much sold at the City Market under my name which I had nothing to do with.

We have a fine flock of White Wyandottes and White Leghorns and will have 1st class eggs for setting at very reasonable prices.

We wrap large orders at the nursery and our customers can get them at the market.

We do no busines on Sunday.

1538 Mattern Ave., Des Moines, Ia., Jan. 27, 1930.

Mr. Cyrus E. Harvey,
Altoona, Iowa.

Dear Sir:

I wish to express my appreciation of the nursery stock and treatment you have given me. I got over \$75.00 worth from you last season and expect to get about \$150.00 worth this season.

Very sincerely yours,

George S. Laurins.
